

COVID Risk Assessment

The full version of the risk assessment is on our school website

www.hillfieldscoventry.co.uk/useful-information/policies/

Numbers are still high and so our school risk assessment is **very important**.

All our staff have been vaccinated. This helps keep our community safe

If your child is ill please keep them at home, ring us to report it
If they have COVID symptoms please get a test and let us know the result

Please continue to wear a mask on the school site

Adults: Please use hand sanitiser before coming on site
Children: we will ensure children wash or sanitise their hands through out the session

There is a one way system in place so that everyone has social space

Only staff and children are able to use the indoor spaces

We are following government guidance to support the safety of our families and community
